RE: Pyros® eXpress Software V. 1.2.7 Upgrade

Dear Valued Customer:

Associates of Cape Cod, Inc. (ACC) is pleased to share with you the latest release of our Pyros® eXpress Endotoxin and Glucan Detection Analysis Software (PEXS), version 1.2.7.

Pyros® eXpress endotoxin and glucan detection analysis software offers integrated solutions for your quantitative endotoxin and glucan detection testing, reporting needs, trending, and data management. Pyros® eXpress supports all of the quantitative endotoxin and glucan detection assays from ACC, including our recently released PyroSmart NextGen® Recombinant BET Reagent, and allows users to test in a quality controlled environment quickly and efficiently.

As part of ACC's continuing efforts to incorporate customer feedback and refine our LAL data collection systems, we've made a number of changes in this update. A detailed list of updates is included as a second attachment to this notification (Pyros eXpress Release Notes MKT# 22-157).

As a reminder, the latest version of the Pyros® eXpress Software and associated documents can be downloaded via The ACC Software Digital Distribution Portal. You can access the portal utilizing the following URL: <http://portal.acciusa.com/>. Simply select your software product, login or follow the easy steps to register and that's it.

If you wish to order these or any other products and services from ACC, please contact your local representative or email ACC at: [custservice@acciusa.com](mailto:custservice@acciusa.com).

We appreciate your business and will continue to provide you with leading products and services to meet your current and future needs.

Sincerely,

Roger Withers  
Marketing Program Manager, BET
