

Biodiversity Policy

As a science-based entity, Associates of Cape Cod, Inc. (ACC) recognizes the importance of biodiversity. ACC's actions and policies are based on supporting the preservation of biodiversity and the sustainable use of biological resources.

1. Scope of application

- Applies to all officers and employees of ACC and its subsidiaries

2. Corporate management

- Corporate management that considers biodiversity by identifying impacts that business activities have on biodiversity throughout the supply chain and striving to understand the impact

3. Biodiversity preservation through environmental impact reduction

- Understand environmental impacts that have an impact on biodiversity by engaging in pollution prevention, resource recycling and or conservation, and effective use of energy and water

4. Raising awareness of biodiversity preservation

- Raise awareness of the importance of biodiversity and contribute to creating a culture that fosters biodiversity through communication and engagement with stakeholders, regulators, and business partners

5. Legal compliance

- Comply with the laws, regulations, and agreements of the countries and regions which house operations and strive for the fair use of biological resources, including genetic resources

6. Information sharing

- Proactively disclose activities related to biodiversity preservation
